Added two new communities: Buffalo, New York, and Orange County, California, which increased the number of Warriors we impact by more than 1,500.

Developed and mentored Panhandle Warrior Partnership, a new independent Florida nonprofit.

Hosted 300+ professionals at our 2nd Annual Symposium which increased awareness of veteran issues nationally and influenced best practices across the U.S.

Developed and introduced WarriorServe™ v1.0 to communities which helps to standardize data collection and analysis, providing better linkages between Community Organizations and Warriors.

Rolled out a formal partnership with the VA to house a Veterans Economic Community Initiative Director in each community in order to increase economic impact to the veteran space.

Completed a multi-year Strategic Plan with Key Performance Indicators designed for future success and participated in an in-depth measurement and evaluation of programming and impact.

“We want our veterans to be surrounded by as many resources as possible. Since America’s Warrior Partnership has provided us with a new spirit of cooperation and proven service model, Goodwill has been able to help a larger number of veterans in a shorter span of time.”

“America’s Warrior Partnership has proved to be a time machine of sorts for Veterans One-stop Center of Western New York. The program and organizational boost not only increased the number of veterans we can serve, but propelled us almost 3 years ahead of our goals. A big factor is the new ability to capture specific metrics about the veterans we are serving along with their needs. We are able to work smarter with a bigger impact.”
